Proprietary Blend of 2 **OMRI Listed** Organic Components:

Organic Forest Humus + *AZOMITE*[®] Soil Sweetener

<p style="text-align: center;">Potential Benefits of <i>Organic Forest Humus:</i></p> <ul style="list-style-type: none"> • Supplies Organic Matter • Keeps Soil loose • Conditions Soil • Improves Moisture Retention 	<p style="text-align: center;">Potential Benefits of <i>AZOMITE</i>[®] Soil Sweetener:</p> <ul style="list-style-type: none"> • Bigger Plants • Blight Avoidance • Larger root systems • More Produce
--	---

- ***AZOMITE*[®] Soil Sweetener** is an OMRI-listed, certified organic product used to re-mineralize soils depleted by plant uptake and normal erosion. It provides a natural, high quality calcium source to combat soil acidity and "sweeten" the soil, creating an environment where minerals are more available to plants.
- ***Organic Forest Humus*** consists of forest products and green waste collected from the Santa Barbara region, processed and composted to our own specifications. Not only does organic forest humus improve your soil, it recycles local materials to improve our local environment!

How to Use *All Around Forest Humus Plus:*

- **As a General Soil Amendment & for Vegetable or Flower Beds:** Apply 1" – 2" of *All Around Forest Humus Plus* on top of soil. Work in to soil to a depth of 4" – 6."
- **For Planting Trees & Shrubs:** Mix 1 part *All Around Forest Humus Plus* with 2 parts soil in the planting hole.
- **Planting Mix for Pots or Planters:** Mix 1 part *All Around Forest Humus Plus* and 1 part soil. For indoor pots, use 2 parts *All Around Forest Humus Plus* and 1 part soil.
- **Top Dressing / Mulch:** Apply approximately 1" deep to reduce weed growth, conserve moisture, and keep soil temperatures more uniform.
